From: mrham@nebonet.com
Topic: 1 Message: 1

Hello,

I would like to invite you to join the UtahScanner mailing list.

The description of this mailing list is:

UtahScanner List Server is a forum setup for the exchange of information, primarily that of Scanner/Reciever information centrally focused on Utah in general. Most any topic is accepted, however, all messages are screened. This list is a service of the Juab Amateur Radio Society in Nephi.

You can join this list by going to the following web page:

http://www.onelist.com/subscribe.cgi/UtahScanner

If you do not wish to join this list, please ignore this message.

Thanks,

mrham@...
List Owner

2. FW: CQ! Varsity On Target needs HAM operators!

Yahoo group: ut_races

Subject: CQ! Varsity On Target needs HAM operators!
Importance: High

(Please excuse the intrusion but we're trying to find HAMs that will help out with On Target - see below. 73 de N7TEK)

CQ CQ all Amateur Radio Operators!
Varsity Scouting "Operation On Target"
NEEDS YOU!

WHAT IS ON TARGET?
ON TARGET is a national Varsity Scout special high adventure event scheduled for Saturday morning, July 17th, 1999. Varsity Scout teams will choose mountains, buildings, or other tall structures to climb (or drive to, or ride to). From there, they use mirrors to signal each other. Each team communicates and confirms mirror flash sightings to each other with cell phones, or preferably, by amateur (HAM) radios. The contacts are plotted on a map to see how many other teams each team can contact and how far the mirror flashes can be relayed. A challenge has been issued to go from Alaska to Mexico.

WHY ARE AMATEUR (HAM) RADIO OPERATORS NEEDED?
ON TARGET teams can, and do, use cellular phones to communicate, but on many mountain peaks there is no cellular coverage and therefore they find that once they've reached their mountain peak they cannot communicate with other teams to confirm their mirror flashes. This is very discouraging to the young men in the Varsity Teams. By involving HAM radio operators using portable VHF radios (2m) with each of the On Target teams, there can be nearly 100% assurance that each team can contact any other team that is flashing them. This is due to the fact that the radio signals at these frequencies are line of sight and if you can see flashes from another team and they have a 2m radio with them, both teams will be able to talk directly to each other (barring radio problems). Unfortunately in 1998 out of 82

teams that signed up there were only about a dozen HAM radio operators that participated. We would like to see many more HAMs participate this year!

Another benefit of using Amateur Radio frequencies is the many mountain-top repeaters in the western US that provide for communication capabilities well beyond the horizon. Some of these repeaters are chained or "linked" together to form a network of repeaters allowing radio coverage over most of a state or across several state lines. The repeaters, listed below, form such a linked system that covers most of Utah and parts of Idaho and Nevada. This should allow teams with HAM operators to know of other teams well beyond their visual range and attempt to relay mirror flashes across the state or maybe even across several states.

LINKED REPEATER
SYSTEM
OUTPUT FREQ. LOCATION

147.180 (HUB) Snowbird UT
*147.240 *Cinnabar (west of Boise ID)
147.120 Farnsworth Pk. (Oquirrh range), UT
147.020 Bear Lake UT
146.940 Frisco Pk. (Milford UT)
*146.880 *Las Vegas NV
146.860 Medicine Butte, near Evanston WY
146.850 Jumpoff (near Howell ID)
146.820 Utah Hill, St. George UT
146.800 Blowhard, Cedar Breaks UT
146.430 Malad Pass ID (simplex frequency into linked system)

LINKS to REPEATER MAPS of AZ, ID, UT, & WY:
http://www.burgoyne.com/pages/ferney/repeater.htm

SUGGESTED SIMPLEX FREQUENCIES FOR ON TARGET:
146.460
146.520

*NOTE: The Cinnabar (Boise) and Las Vegas repeaters may or may not be linked into the system during On Target depending on the control operators in those areas. These repeaters are NOT permanently linked to the system. Also some of these repeaters may require a 100 Hz. PL tone. So if you can't seem to raise the repeater try turning on a 100 Hz. PL tone. The BSA Council's in Area II (Idaho, eastern Oregon, Utah, & western Wyoming) would like to thank the trustees of each of these repeaters and John Lloyd (K7JL) for allowing the use of these repeaters during Operation On Target!

WARNING: Please limit your use of the linked repeater system to 5 minutes or less by trying to establish contact with another team and then moving to a simplex frequency whenever possible. Be sure to ID with your call sign at least every 10 minutes. Also leave a short pause between transmissions to allow emergency traffic or other breaking stations to get in.

A third benefit of Amateur Radios for the On Target exercise is the ability to be in contact with several teams at once (sort of like having a big party line), whereas cell-phones can only provide communications between two teams at any one time. Teams using only cell-phones get somewhat frustrated trying to contact another team when they continually get busy signals.

HAM operators providing communications for Varsity Teams also provide two other benefits. First, they demonstrate communication skills (there is a Radio merit badge that the young man can earn). Second, they demonstrate the use of Amateur Radio and some of the young men, or the adults with them, may want to get involved in Amateur Radio and earn their own license. Besides, it's a GREAT excuse to get out in the mountains and test those emergency or Field-Day skills - PLUS it's a lot of FUN!

HOW SHOULD HAMS SIGNUP TO HELP?
HAMs should sign up by going to the special On Target HAM registration page

http://www.gslbsa.swanson.net/varsity/target/resources/hamops.html

and sign up (be sure to list your name, call sign, council, accessibility, bands and your phone number). If you don't have Internet Web page access, you can email or phone your request to:

John Blackham N7TEK W:588-1216 / H:295-3036
emailto:n7tek@...
Ray Dahl KC7YVP W:585-9039 / H:963-6197 rdahl@...
Rick Donkin KA7MMM W:594-2167 / H:968-3892
donkin@csw.L-3com.com

How can a HAM get in contact with the Varsity Teams in their area?
Contact your local Boy Scouts of America Council:

AREA II Councils
Great Salt Lake Council - (801) 582-3663
Trapper Trails Council - (801) 479-5460 or (800) 748-4256
Utah National Parks Council - (801) 373-4185
Grand Teton Council - (208) 233-4600 574 4th Street, Idaho Falls, ID 83401
Ore-Ida Council (Boise ID) - (208) 376-4411 or (800)-894-6839

25. RACES Net Reminder

Yahoo group: ut_races
Date: 2000-12-19 22:05:16 UTC
From: L. Brent Thomas
Topic: 25 Message: 25

Welcome all new ut_races egroups members.....
The Utah RACES VHF net is scheduled this Thursday DEC 21, 2000 at
8PM.... This is your reminder to be there and please remind all other
RACES members to also check-in on their local linked repeater....
You might also encourage them to join this egroups list... See you on
the net..... Brent AC7H

26. RACES HF Net Reminder

Yahoo group: ut_races
Date: 2001-01-19 19:19:23 UTC
From: L. Brent Thomas
Topic: 26 Message: 26

Hi All
Welcome to new members of ut_races...
The RACES HF net is scheduled for 8 AM Saturday Jan 20th on 3918KHz..
Remind all that may not be on egroups to join and to check-in to the
Net on Saturday..... Hope to see you there.....Brent AC7H

From: whisphuby@aol.com
Topic: 31 Message: 31

i was hit by a car in a blind intersection and a dangerous alley in salt lake city some years ago i had serious injuries that still affect my life today iam trying to sue slc corporation and i even went to the mayor and the govener before hand the govener mike levitt was real nice and helpfull any how my comment is that the tax payers pay to be safe and the city should take responsability for there streets alleys etc, and should compasate peaple who get hurt bad where the city is obvisouly at some fault instead of putting the victim threw more hell and fix the street when it becomes a issue thats what taxes are part of..
here iam still paying i have short term and long term memory loss and i need a hip replacemant soon and i have forgoten so much and still do to this day i have lost out on all kinds of things life has to offer and if the city had been more responsable maybe this would have never happened to me ....
again thanks

RACES all day Workshop

Date: April 14, 2001
Time: 8:15 AM to 5 PM
Location: Utah National Guard Armory
Draper, Utah
12953 South Minuteman Drive
Frontage Road East of 1-15
Take 12300 South exit, go south on frontage road
Cost: No Charge - Must pre-register & be a RACES member
Lunch: Provided at no cost
Agenda Items: Antenna's
HF operations
Grab and Go Kits
Amateur Olympic volunteers
APRS
ATV
Etc.
Application: Available on line @ www.cem.ps.state.ut.us
Go to Radio/Communications button then to RACES
section
Can apply directly on line
Applications can be mailed to applicants if required
Call 801-538-3700 or 800-753-2858 to request
application

Hello Brent...I was wondering if there was going to be a reply to the application to attend the Workshop on the 14th of April. I sent an application but haven't been informed if I have a seat reserved. Hope all is well with you and yours...look forward to seeing you at the workshop and learning a thing or two.

73 for now...George, K7BFI

Hello again Brent...Sorry to bother you again, but I filled out the online application several weeks ago, and I still don't know if I have a seat reserved at the seminar. I am planning on attending Saturday, the 14th, but I have not received a confirmation to my application. Should I have received some kind of confirmation? Please let me know. I am anxious to attend and since I filled out the application and submitted it on the RACES site you referenced below, I can only "assume" space is reserved, but I don't know for sure.

Thanks in advance for your response...George, K7BFI

Utah RACES Net Reminder
Thursday February 20, 2003 @ 8 PM

In addition to some cross banding we will be using the following IRLP
frequiencies:

Cache County 447.000 (T 103.5)
Wasatch front Neilson Peak 449.425 (T 100)
Lake Mtn 449.475 (T 100)
Lewis Peak 449.550 (T 100)
Clearfield 449.950 (T 123)
Sinbad System
Skyline System including 449.300 (T 88.5)
SnowBird System

Future locations:
Roosevelt (maybe on by net time)
St George
Cedar City

From: Douglas B. McKay
Topic: 79 Message: 81

It sounded really good to us at the Timpanogos Hospital in Utah County where we crossbanded from 449.475 to 147.34. There were what sounded like a couple of packet bursts toward the beginning of the net (don't know whether it was on our end or on the whole system). Also, when we were in two way mode, the courtesy tone and relatively long tail on 449.475 made it a little tricky for people to get in on 147.34 (they had to time it just right, or hold the mic open for several seconds). We thought it was interesting that NCS called in on the 147.34 repeater to do acknowledgements instead of coming over the link. Could they not get back in? Last, we were thinking that it took a little longer to get all the check-ins than normal, but as people get used to things, speeds should pick up. Great job! I have worked quite a bit with EchoLink on my end and appreciate the quality of the IRLP system and what you've done with it.

...Doug KD7LRJ

Bret,
We had no problems on the Logan IRLP. It sounded better than the crosslinked 145.49 repeater. The only echo I heard sounded like a station that was monitoring another repeater while checking in on IRLP.

85. Calling all willing helpers for Utah Half Ironman

Yahoo group: ut_races
Date: 2003-05-01 20:32:42 UTC
From: Andrew Heil
Topic: 85 Message: 85

We are looking for amature radio operators that would like to come play radios with us on May 31. We will be doing the communications for the Ironman Utah Half Marathon.

All you need to do to sign up, is go on www.ironmanutah.com then click on volunteers and fill in the sign up blanks. On the comments at the bottom of the sign up would you please put your call sign. (Don't forget to put in your shirt size)

Thanks for helping out, we still are in need of quit a few more operators and we really have a pretty good time.

Thanks again,

Val Carter - W7YJ

92. RACES Workshop 9-27-03

Yahoo group: ut_races
Date: 2003-09-11 14:09:58 UTC
From: n7gte
Topic: 92 Message: 92

Dear RACES Member,

The upcoming RACES Workshop scheduled for September 27, 2003 is rapidly approaching. As of today there have not been enough registrants to warrant holding the training.

If you have found this training valuable in the past, please register today. The deadline for registration was September 5th. We have extended registration through September 16th. You can register online at: http://des.utah.gov/training/enroll.html

If we still don't have enough registrants by Tuesday, September 16th, the Workshop will be cancelled. Thank you for your interest and participation.

Bob Craven, N7GTE

105. I will not be around for the NET

Yahoo group: ut_races
Date: 2003-12-17 17:20:56 UTC
From: bmills@ecso.com
Topic: 105 Message: 105

Hi guys, I will not be around at NET time because my Daughter has a band concert.
I will have everything up and running on my end before I go to the concert, I will also have Jim "KJ7S" on stand-by to make sure things run smooth.
Remember that IRLP users need to use the *UTAHGATE* Bridge Server as usual and the ECHOLINK users need to use the *SINBAD* Bridge server this should help make things run smooth.
We test these two Bridges every week on our Sinbad NET so I am sure everything will be just fine.
If anyone has any questions please call me at 435-381-5026 or if it's real important you can call my Cell phone at 435-636-5678

Thanks guys and have a VERY Merry Christmas and a Great New Year

107. Radio Volunteers Needed

Yahoo group: ut_races
Date: 2004-01-06 00:38:15 UTC
From: n7gte
Topic: 107 Message: 107

Dear fellow radio operator,

As announced on the December 18th RACES statewide VHF net, The Utah Department of Public Safety, Division of Emergencey Services is requesting volunteers for the upcoming Moscow/Utah Youth Winter Games. Server glitches have delayed getting the form online but, at long last it is there.

We are in need of volunteers to sign up NOW. Please follow this link to our Web page: http://des.utah.gov/radio/ The link to the sign-up form is between the Web page header and the text on most of the Radio Communications pages.

It is urgent that if you want to participate that you sign up NOW. We will need to make shift assignments as soon as possible. Shifts will begin on January 30th and end on February 9th 2004. If you have any questions please call Brent Thomas at 801-538-3700, Bob Craven at 801-538-9663 or Lou Little at 801-538-3782.

Thank you.

From: n7gte
Topic: 108 Message: 108

Dear fellow radio operator,

On the December 18th RACES statewide VHF net, The Utah Department of Public Safety, Division of Emergency Services began requesting volunteers for the upcoming Moscow/Utah Youth Winter Games.

Our volunteer assignments will begin on January 30th and end February 9th, 2004. We have been told our hours of operation will be 0700 to 2300 each day.

Our present assignments will be to assist at two command posts at two hotels. Duties include assisting with communications by telephone, radio and the internet (E-Team). Shifts will be established to accommodate volunteer schedules and meet the needs of the assignments. Additional assignments may be forthcoming.

It is urgent that if you want to participate that you sign up NOW. We will need to make shift assignments as soon as possible. Please follow this link to our Web page: http://des.utah.gov/radio/

The link to the sign-up form is between the Web page header and the text on most of the Radio Communications pages.

If you have any questions please call Brent Thomas at 801-538-3700, Bob Craven at 801-538-9663 or Lou Little at 801-538-3782.

Thank you.

117. great net and IRLP Info

Yahoo group: ut_races
Date: 2004-04-16 03:16:26 UTC
From: Bret Mills
Topic: 117 Message: 117

great sounding Net guys, just a note to let you know that Dave Cameron (the inventor of IRLP) is doing a rewrite of the "speak freely" software that IRLP uses for both IRLP and EchoLink connections.
The rewrite should really improve the audio especially the narrow band "GSM" audio, by the next time the Net is on hopefully we'll have the new Audio files on all the machines which should help with the audio drop outs and fluttering.
73's to all

120. (no subject)

Yahoo group: ut_races
Date: 2004-06-08 04:28:54 UTC
From: Bret Mills
Topic: 120 Message: 120

Hi Guys it is very important that we upgrade your Nodes with EchoIRLP before the next RACES Net, the way it is now it won't work anymore with the resent updates from IRLP.
What you will need to do is load "EchoLink" on your windows machine and register your call sign like
i.e.: WX7Y-R , and remember the password you used and just let me know when you have done that then I can install the software o-yea I will need the password you used when you logged onto EchoLINK and then open the EchoLINK ports on your fire wall if you haven't already done so using the IRLP's IP address.
Let me know if you need help

Date: 2004-06-10 14:40:22 UTC
From: Hellewell, Byron (Mission Systems)
Topic: 121 Message: 121

Hi Bret
I do not have EchoIRLP on my node in Clearfield.
Do I need to update anything?

I thought you would know since you were the last to log on to the node.

It the logon still K0NOD and password Beaker?

I have been trying to log on remotely, now that I have a broadband connection
and it has not been working.

Thanks
Byron NJ7J

Subject: [ut_races]

Hi Guys it is very important that we upgrade your Nodes with EchoIRLP before the next RACES Net, the way it is now it won't work anymore with the resent updates from IRLP.
What you will need to do is load "EchoLink" on your windows machine and register your call sign like
i.e.: WX7Y-R , and remember the password you used and just let me know when you have done that then I can install the software o-yea I will need the password you used when you logged onto EchoLINK and then open the EchoLINK ports on your fire wall if you haven't already done so using the IRLP's IP address.
Let me know if you need help

128. IRLP/ EchoLink Links for RACES Net

Yahoo group: ut_races
Date: 2004-08-17 04:26:54 UTC
From: Bret Mills
Topic: 128 Message: 128

Just a reminder, If you have not had ECHOIRLP installed on your node or if you haven't had me modify your Node it may not work for the RACES NET , so if your planning to use your IRLP Node for the RACES Net it needs to have these changes made BEFORE the Thursday nights net.

For the IRLP NODES which DO NOT have EchoIRLP installed it is Node number " 9978 ".

If you have EchoIRLP installed on your IRLP NODE then it is Node number " *70226 " that is " Star 70226 "

For EchoLink ONLY stations you can use Node number " 89045 " or click on " *SINBAD* ".

129. BARC in need of portable repeaters

Yahoo group: ut_races
Date: 2004-08-17 22:38:53 UTC
From: n7uwx
Topic: 129 Message: 129

September 16 the Bridgerland Amateur Radio Club will participate in the annual LOTOJA Classic Bike race. (Logan to Jackson Wy. http://www.lotojaclassic.com)
This year the route has been changed and will go to Montpelier after we get to Soda Springs, instead of the usual route over Tin Cup.
There is very little repeater coverage after you get through Montpelier and into the Canyon. So we are asking to see if there are any groups in Utah that have portable repeaters we may be able to barrow that weekend.

If you do have one to spare please let Kevin Reeve, N7RXE (kevin@...) or myself Tyler Griffiths, N7UWX know.

Thanks for any help you can provide.

Hello to the group
Working with Kent on IRLP reflector 9258 we will be tying together EchoLink/ EchoIRLP Nodes on 70226 or on EchoIRLP machines *70226 and IRLP reflector 9258.

With machines that have NOT upgraded there Nodes to EchoIRLP use the IRLP reflector 925 channel 8 or 9258.
Thanks again to Kent for bridging these together for us and I hope the other Node owner/operators will upgrade there IRLP Nodes to EchoIRLP so we don't have so many machines to worry about if we do have a disaster that the Capitol need to be in contact in ALL areas of the state.

179. Digital Station for NTS Traffic

Yahoo group: ut_races
Date: 2005-09-27 14:29:23 UTC
From: Jim Brown
Topic: 179 Message: 179

I'm shopping for a station that has digital capabilities and would have an interest in picking up and distributing digital traffic for Utah. The station would need HF digital capability. Anyone with an interest...let me know, and I will get details. The paste below may give you a flavor of what is needed.

73,
Jim Brown NA7G
Section Traffic Manager
Utah
na7g@...
800 753 2858
801 538 3779

Hi-
I've been wondering if you guys have had any luck finding a digital station in your section that would consider connecting to a TWN hub and download Section messages for distribution. Grant (WB6OTS) is now the new TWN Digital Hub and is receiving the TWN tfc from the new Pacific Area Digital Coordinator (PADC K7BDU) that is replacing Rob. He is looking for outlets for traffic to WY and UT. Airmail software could be used and your Sectional digital station could download that traffic that he thought he could find outlets for. The traffic that was not downloaded would then expire and the messages would be serviced as "no outlets" by Grant. Of course, we could use a little "spam" traffic for practice if we so desired. Let me know if you have any leads. Thanks for your support of TWN C/4. CU & 73's!
Lanny KØEZ

I've been wondering if you guys have had any luck finding a digital station in your section that would consider connecting to a TWN hub and download Section messages for distribution. Grant (WB6OTS) is now the new TWN Digital Hub and is receiving the TWN tfc from the new Pacific Area Digital Coordinator (PADC K7BDU) that is replacing Rob. He is looking for outlets for traffic to WY and UT. Airmail software could be used and your Sectional digital station could download that traffic that he thought he could find outlets for. The traffic that was not downloaded would then expire and the messages would be serviced as "no outlets" by Grant. Of course, we could use a little "spam" traffic for practice if we so desired. Let me know if you have any leads. Thanks for your support of TWN C/4. CU & 73's!

181. Looking for Hams with HF Digital Capability

Yahoo group: ut_races
Date: 2005-09-30 16:44:43 UTC
From: Mel Parkes
Topic: 181 Message: 181

I'm shopping for a station that has digital capabilities and would have an interest in picking up and distributing digital traffic for Utah. The station would need HF digital capability. Anyone with an interest...let me know, and I will get details. The paste below may give you a flavor of what is needed.

73,
Jim Brown NA7G

184. Cancellation of ARRL/RACES November Meeting

Yahoo group: ut_races
Date: 2005-11-02 16:42:14 UTC
From: ac7cp@aol.com
Topic: 184 Message: 184

Please accept my apologies for those of you that may get this email more than once, but I have sent this out to many groups, due to the need to get the word out that the ARRL/RACES November Meeting for this Saturday (5 Nov) has been canceled. Unfortunately we were not able to get all the details worked out to make it happen, we may not be able to reschedule for this year so we may have to wait for some time next year. Please pass the word to as many others as you know so that everyone possible gets notified.

Mel Parkes, AC7CP
Utah Section Manager

From: ke7nt@aol.com
Topic: 187 Message: 187

I have been on vacation for about two months and just ran across this in my old E-mail. It was posted on a '6 Meter sked' Yahoo group that I receive.

Looks like Mitt was not so appreciative of all the effort put out by local Hams during the 2003 Olympics. Makes you wonder what bad experiences he has had in Massachusetts and what he thought about all the other volunteers that made the Olympics (and him) look so good.

190. Updated RACES Member Roster

Yahoo group: ut_races
Date: 2006-12-07 23:16:37 UTC
From: n7gte
Topic: 190 Message: 190

All Utah RACES Members:

A new Utah RACES Member Roster has been posted to the Utah Division of Homeland Security Website:

http://dhls.utah.gov/pdf/radio/RACES_Sort_12_06.pdf

I have also posted a copy here in this groups files area.

Please check the roster. If you have upgraded, moved or renewed your license since the date listed in the "UPDATE" column, please go to the online application form, fill it out, print it, sign it and submit it (by FAX or mail) with all the new information. Do the same if the "UPDATE" column is blank.

For those that have waited patiently for acknowledgement of your registration, certificates are being mailed. You can also find your RACES Number on the new member roster.

Thank you for your support.

73,

Bob Craven N7GTE
Utah Division of Homeland Security
RACES Director

196. UTAH AMS Chapter

Yahoo group: ut_races
Date: 2007-08-05 21:20:39 UTC
From: Joe
Topic: 196 Message: 196

Hi,

We are currently in the process of determining whether there is enough interest to revive the Utah Chapter of the American Meteorological Society. If this is something you might be interested in, please read on for more information about the chapter and reply to this email. If this does not interest you, simply disregard this email.

The Utah Chapter of the American Meteorological Society (AMS) has a long history dating back to the 1940s. However, the chapter has been inactive in recent years. We would like to reactivate the chapter beginning this fall if we can find enough people interested in joining the chapter. The purpose of the chapter is to increase awareness of meteorology among the general public, and to promote interaction between local meteorology professionals. Among the many activities that local AMS chapters are involved in include: hosting speakers and conferences, career counseling, and providing science support to local schools. A brochure which provides additional information on AMS local chapters can be found at: http://www.ametsoc.org/amschaps/chapterbrochure07.pdf.

Chapter membership is open to professionals in the field of meteorology as well as to weather enthusiasts. We are trying to recruit from a broad range of interests including meteorologists from the government, military, television, academia, and the private sector. Chapter members are not required to be members of the national AMS http://www.ametsoc.org/. However, we are required to have at least 5 national members in order to reactivate the chapter. In addition, all chapter officers need to be national members (something to keep in mind if you are thinking of becoming an officer).

There will be annual dues required of members. Dues will be decided upon at the first meeting, but for reference, dues were $12 in 2001 (less for students).

If you are interested in joining the Utah Chapter of the AMS, please reply to this email. In your reply, please also state whether you are a current member of the national AMS or plan to become one by this fall. If we have enough interest to reactivate the chapter, we will send out more information later this summer with additional details. If you could also pass this email along to others whom you think would be interested in joining, it would be appreciated.

Thank you for your time, and we hope that you will be able to take advantage of this opportunity to become a member of the Utah Chapter of
the American Meteorological Society.

Sincerely,

Linda Cheng, Mike Seaman, and Brandon Smith
National Weather Service - WFO Salt Lake City

197. NWS designed FLARE weather program to be used on desktops

Yahoo group: ut_races
Date: 2007-08-27 01:57:49 UTC
From: Joe
Topic: 197 Message: 197

This message is to announce the availability of FLARE for the
Western Region.

FLARE stands for Fully Localized Atmospheric Research Environment
and we see it as a composite weather display tool. It is a java-based
client application that is useful for kiosks and desktop displays, and
is very customizable. FLARE also provides a warning mode to alert the
user of current watches and warnings. It currently runs on MS
Windows.

Here are the links to the application and documentation. You will
also
need Java to run FLARE and there are simple instructions on
downloading
this in the documentation and the README.txt file.

Application http://www.wrh.noaa.gov/wrh/ssd/flare.msi
Documentation http://www.wrh.noaa.gov/wrh/ssd/index-flare.html

Written by Jason Burks in SR, we have made some modifications to the
FLARE program to add features and make it easier to get up and running
in the WR. The installation script prompts for local variables in
order to generate a startup configuration. This initial configuration
(screen layout) is in a format that we find intuitive, but the program
is highly configurable and users can modify the layout (and data
displayed) to best suit their needs. Please see the documentation
for more information.

What to expect in the initial configuration:
- There are five main display panels
Looping panel, Obs panel, WWA-key panel, Period panel,
and a Scrolling Forecast panel.
- The Looping panel is pre-configured for
Local RADAR, WR WWA-map, WFO WWA-map, Local Satellite,
GOES West Infrared and Water Vapor satellite images,
and CONUS Graphical Temperatures.
- The images will not begin looping until enough time has
transpired to load a full loop of six images. This may take
20-30 minutes for RADAR and ~90 minutes for satellite images.
- The High and Low temperatures displayed in the Observation
panel reflect temps since the start of the application.
- If a warning is in effect for your selected area then the
FLARE icon will change to a "Warning is in Effect" message
and the scrolling forecast will change to display the warning.
- Warning mode is triggered only for the following PILs
TOR, SVR, SVS, SPS, FLW, FFS, FFW, WSW and RFW.

- Warnings are checked every two minutes.

Your feedback is welcome.

I hope that FLARE will be useful to you and others in your office.
Please feel free to share this program with interested public users,
and contact me if you have any questions or need assistance.

Thanks
Joe

I would think that the State of Utah RACES would have some type of written EMCOMM plan. N7GTE would or should know.

If you find out, I too would like to know the answer.

Here's a scan of the letter Tyler referenced with all the statewide RACES frequencies. Because it's a scanned image, you won't be able to copy/paste text from it, but at least you can read and print it.

Cheers,

Mike - KD7MG

I have a list of RACES frequencies including HF,VHF and I believe UHF. This list was mailed (snailmail) to me when I received my RACES registration. Unfortunately, I left this list at home. If no-one posts it here before I get home, I'll post it. I'll also make an electronic and hard copy I can carry with me for next time :)

205. RE: [ut_races] Re: State ECOMM Frequencys

Yahoo group: ut_races
Date: 2008-01-17 00:49:28 UTC
From: Mike Groves
Topic: 200 Message: 205

OK, here are the 9 "monitored" frequencies copied from the attachment I couldn't send.

80m:

3918.0 KHz LSB

3987.5 KHz LSB

40m:

7272.0 KHz LSB

2m:

145.05 MHz Packet (24 hours)

146.88 MHz Repeater (100 Hz)

146.94 MHz Repeater (88.5 Hz)

147.06 MHz Repeater

147.54 MHz Simplex

70cm

449.900 MHz (100 Hz)

Hope this helps. The rest of the sheet dealt with times & frequencies of the RACES nets. I would be happy to email my scanned copy directly to anyone in the group wishing one. BTW, it's dated 10/2007.

Cheers,

Mike - KD7MG

How come they don't use the Yahoo calendar feature to send out an automated reminder about the RACES Net? It would be handy to get a reminder within 24 hours before the net that contained frequencies, etc..

Thank you,
John

212. Utah Repeater Map

Yahoo group: ut_races
Date: 2008-07-18 02:14:45 UTC
From: lmemmott
Topic: 212 Message: 212

UT Races,

I shared this with a few previously but thought I would share this with the whole group. Over the years I've found the repeater list from the Utah VHS Society to be a great resource (see: http://utahvhfs.org/rptr.html) but I've always wished I could see the data on a map instead as a list. ...so earlier this year I developed a way to show the utah repeaters on a Google map and I posted it on the web. You can get to it here: http://www.lmemmott.info/UtahRepeaterMap.htm

This isn't perfect. In fact this is just a start and I call it a "demostration" since it hasn't been well tested in a variety of computer operating systems (i.e. Windows, Linux, OS X) or with a variety of browsers (i.e. InternetExplorer, Firefox, Opera, Safari) and it could probably use a few more features to make it more usable. If you're interest in this, please give it a try and let me know what you think and how well it works for you. In my spare time I'll work on fixing it to make it a useful resource.

Please note that due to the nature of how Google maps works and the amount of data it downloads, this won't work well on a dial-up Internet connection. You'll want to try it on a broadband connection.

Thanks,
Lester Memmott

218. 2008 RACES Conference

Yahoo group: ut_races
Date: 2008-10-09 13:19:51 UTC
From: n7gte
Topic: 218 Message: 218

The annual State RACES/ARES Conference will be held on Saturday, 08 November at the Red Lion Hotel in Salt Lake City. You do need to pre-register for the conference.

In order to do this you will need to utilize the new U-Train system which is found at:

https://www.utah.train.org/

Once at the website, the first thing you need to do is set up an account in U-Train as a new user (if you have not already done so previously). Once your U-Train account registration is completed you will then proceed to login and then either do a course search for the keyword(s)ARES or RACES or on the right side of the home page key in the actual course number, which is 1011069 for the ARES/RACES Conference. Once you have the course listed on the screen, click on that to bring you to the registration/information page and click on the registration tab to register. The system will indicate that your request has been submitted and has to be approved. U-Train notifies the State Training Staff and they will acknowledge by email that you are signed up for the ARES/RACES Conference.

223. APRS Digi for Utah County

Yahoo group: ut_races
Date: 2008-11-07 22:42:33 UTC
From: Keith, KB7M
Topic: 223 Message: 223

I have noticed that APRS coverage in Utah county is not very good. I would like to do what I can to improve that situation. Here's what I can come up with:

- I'm on the Utah County ARES / SCATeam repeater committee and can almost certainly arrange for a mountain top site for the digi.
- I have a Motorola Mitrek already set up on 145Mhz (used on packet for many years from home). Crystals would have to be ordered. Alternately, I could probably come up with a GE Phoenix and program it.
- I have a TNC2 compatible (MFJ 1270) that can be used.
- VHF cavities in case we need to keep the packet out of other site users or vice-versa.

What I need is an APRS compatible EPROM that is configured for APRS use from one of our repeater sites. I have been told that a low to medium level site would be best for what we want to do. I have a site available to me at the mouth of Provo canyon that is a couple hundred feet above the valley floor. It has good coverage over most of the valley (a little shadowed into Alpine to the north, and into Mapleton to the south). I also have a site at the extreme north end of Lake Mountain that could be used that covers a much wider area (comparable to say the UARC 146.76 machine).

Could anyone on this group help me get an EPROM configured? The callsign needs to be either my callsign, KB7M or one of our club calls, K7UCS or K7UCA.

I will be attending the RACES conference tomorrow if anyone would like to discuss this then.

Keith McQueen

224. Re: [ut_races] APRS Digi for Utah County

Yahoo group: ut_races
Date: 2008-11-08 07:03:12 UTC
From: Douglas B. McKay
Topic: 223 Message: 224

A couple of years ago Sam Penrod (KB7DZO) put together a digi that we intended to use for the southern end of the county. He had everything set and ready to go and had it running at his house while he was waiting for final permission to place it on West Mountain at a site where he had a connection. Then, something changed (ownership of the location maybe, I can't remember) and things never came together. I haven't talked with him for quite some time, but he may still have the equipment available.

I still have everything here at my house to put the KD7LRJ i-gate (internet gateway/digipeater) back on the air. It would take a bit of work to set back up and for the past couple years with the prospect of better coverage afforded by the locations being considered, I haven't done it. If the gear can be used to good advantage elsewhere in the valley, it is available. It's a GE Phoenix SX with a Kantronics 9612 TNC. I used it in KISS mode with a computer, but with an updated eprom it could run as a standalone APRS digi.

I'm a bit out of touch with the state of things in the valley (teenagers, grandchildren, etc.!), but it looks like the BYU digi is still in (sporadic) operation, and KF6RAL-11 (on Farnsworth Peak) seems to still cover the Northewestern parts of the county fairly well. The Southern portion has always needed better coverage. And, we've always dreamed of having a mobile digi available in the MICC for use wherever it happens to be...

238. Reno Radar Dome Damage

Yahoo group: ut_races
Date: 2008-12-22 22:05:09 UTC
From: radiorockstwo
Topic: 238 Message: 238

I might be pushing the purpose of the list. The below link will show you pictures of our Reno, NV Weather Radar dome colapse. We are relying on weather spotters and amateurs in that area. The radar repairs will begin January 6th 2009 so we are relying on these volunteers for an extended amount of time.

WOW! I assume the dome is made of fiberglass (any idea how thick the fiberglass was?)? This shows how extreme the weather can get up on mountain peaks and how equipment sites have to hardened to survive these extremes. Thanks for posting this to the UT_RACES list!

The January 6th date of repair is a guesstimate, weather is dictating
when repairs can be made.

245. HF RACES NET on Saturday?

Yahoo group: ut_races
Date: 2009-01-13 18:56:46 UTC
From: ke7au2001
Topic: 245 Message: 245

Hello All,

I tend to forget from time to time and am greatful for reminders.

So here is a reminder.

I believe there is a Utah State RACES net on 3920 kHz this Saturday Jan 17, 2009 at 0800 hours local.

Please correct me if I am wrong.

73,

Larry KE7AU

248. Ham radios banned from vehicles in Utah!

Yahoo group: ut_races
Date: 2009-01-16 21:39:49 UTC
From: Keith, KB7M
Topic: 248 Message: 248

If you haven't heard about this, you might want to check out this house bill. It will make the use of a Ham Radio in a vehicle illegal.

250. RE: [ut_races] Re: Ham radios banned from vehicles in Utah!

Yahoo group: ut_races
Date: 2009-01-16 23:12:24 UTC
From: Marc Taylor
Topic: 248 Message: 250

We should start by sending a voice to our legislators. I sent the following letter to my representative:

I am writing to express a concern I have over the bill introduced by Representative Phil Riesen regarding the restrictions on wireless communication devices in vehicles.

As I read the bill, and please correct me if I am mistaken, the use of devices such as Amateur (HAM), or Citizen's Band (CB), radios; as well as all telephony devices , while operating a motor vehicle, would constitute grounds for a class "C" misdemeanor prosecution. As an amateur radio operator myself, I would find that alone cause for concern. The ability to communicate with other amateur operators is vital in passing along information that is necessary to the public regarding conditions in the areas one visits in addition to being one of the great pleasures of driving. Additionally, according to the bill, any trucks using "CB" would be in violation, this would also include communication with Points of Entry on the freeways.

I do appreciate Representative Riesen's intent in writing this bill, and agree that "Texting" alone should be considered a danger while driving. However, I am asking that you would please take into consideration my view, as well as the views of my fellow operators of Amateur and CB radios, and vote against this bill as it is currently written.

Thank You for your time.

Marc Taylor

251. House Bill 95

Yahoo group: ut_races
Date: 2009-01-17 03:29:03 UTC
From: Tyler Griffiths
Topic: 251 Message: 251

This is an important bill for us and Amateurs to get involved in!

As worded right now it dose specify 2-Way Radio!

Besides normal rag chewing while mobile it also limits what we could do while participating in public service events like LOTOJA, Top of Utah Marathon, Etc.

Please follow the link that Jared provided and contact your Representativeand let them know Amateur radio needs to be exempt!

http://www.le.state.ut.us/house/DistrictInfo/NewMaps/State.htm

You can also go to this page and sign-up for email updates as they become available.

http://www.le.state.ut.us/~2009/htmdoc/hbillhtm/HB0095.htm<http://www.le.state.ut.us/%7E2009/htmdoc/hbillhtm/HB0095.htm>

Thanx,

Tyler N7UWX

From: barc@yahoogroups.com [mailto:barc@yahoogroups.com] *On Behalf Of *Ted McArthur
Sent: Thursday, January 15, 2009 10:47 PM
To: barc@yahoogroups.com
Subject: [barc] House Bill 95

HB 95 is a bill that is being discussed in the House Session to make it a Class C Misdemeanor to operate a wireless device in a moving Vehicle. Below is a note I wrote to my Representative.

Here is a link to the Bill
http://le.utah.gov/~2009/bills/hbillint/hb0095.htm<http://le.utah.gov/%7E2009/bills/hbillint/hb0095.htm>

I urge all of you to contact your Representative and voice your opinon.

I believe you are the right person to talk to I have a concern as a Ham Radio Operator. This Bill would make it a Class C Misdemeanor to operator for Ham Radio operators to use their equipment mobile. We are involved in several Public service events Bike Races, Marathons, Biathlons, and as communication experts for the Cache County Sheriff's Office. I understand that the exclusions allow for emergency use. Problem with that is if the only time use the equipment is during emergencies then your skills are not

be practiced so you are prepared for the times when they are needed. There are over 600 Ham Radio operators in Cache Valley alone so I would appreciate your help in this matter.

Ted McArthur

From: kw2usa
Topic: 251 Message: 252

I sent an email to Rep. Riesen this morning reiterating many of the concerns in this post and received the following reply:

Mr. Woods,

Thank you for expressing your concerns on HB95. Let me explain some mis-conceptions you might have regarding the intent of the bill. Your major concern was the use of CB or HAM communication in vehicles. My intent was not to limit those uses and in fact I have drafted an amendment to the bill, which will be presented in committee, that would take the words "two-way radio" out of the bill. my intent with that language was to limit the use of the technology of wireless Nextel voice to voice devices but I later realized the words "two-way radio" would also limit the use of the trucker, CB and HAM operations, which was not my intent.
Banning the use of cell phones and texting while driving contstitutes an issue of protecting the public health and safety.
Thank you for writing with your concerns and I hope the changes I've made to the bill would gain your support.

Sincerely
Rep. Phil Riesen

Phil Riesen on KSL News Radio today said that he has amended House Bill 95 to remove the wording of two-way radio due to concerns of UDOT over their drivers not being able to use their radio equipment.

We will still want to watch this bill as it comes along.

That's not the only concern with this bill. As written, it will also ban AM/FM receivers and XM satellite radio, not to mention GPS receivers and Onstar services. This bill needs to be killed, not modified. We already have on the books laws that disallow driving while distracted. This bill will do way more harm than good.

I guess one has to consider Garage Door openers too since they are transmitters as well.
How many of you would like to get out of your cars before you can use a garage door opener.

Bob Craven (N7GTE, who works for the state) made some great points about being unified in voice on this and being respectful during last weeks Davis County ARES Net that I believe he should repeat here. I believe he and Mel Parkes are monitoring the issue and I'm wondering if they would be willing to update us more frequently on what is happening and what we should be doing? I've subscribed to several of the (Utah) Ham related Yahoo Groups and I get a little different spin on each group.

Are there other things that we should be doing that we are not (i.e. like a petition - http://www.ipetitions.com/start-petition/)? What have other states done that have been successful at fighting similar laws?

Bob or Mel - care to update us?

Thank you & 73 de N7TEK

260. HB 95 & HB248

Yahoo group: ut_races
Date: 2009-01-30 16:44:18 UTC
From: coihueco
Topic: 260 Message: 260

Hello All,

House Bill # 95 and House Bill #248 are be read in the House Rules Committee. Here is a list of the email address for the members of the 2009 House Rules Committee. If you want to have your voice heard on HB 95 and HB248 you need to send your comments to these people also. These are the people who control if these proposals leave the committee and go to the full house and on to the state senate. I have sent my representative an email and followed up by sending a copy of the email to her by US Mail. It is easy to ignore an email but it is much harder to ignore a "real" letter.

Here is an update for you. Both HB 95 and HB 248 which are almost the same bill have been read once in the Rules Committee. They need to have public comment and another reading in the Rules Committee before it is sent to the House floor for approval. If you want updates go to the http://le.utah.gov and find the bill listed under the house. On the bills webpage there is a link where they will send you updates of the process right to your email address.

By the way the bill has not been changed!!! It still contains the provision for two way radio.

262. HB 95 fiscal update

Yahoo group: ut_races
Date: 2009-01-30 17:36:14 UTC
From: coihueco
Topic: 262 Message: 262

Fiscal Note

HB0095 <http://www.le.state.ut.us/~2009/htmdoc/hbillhtm/HB0095.htm> -
Restrictions on Use of Wireless Communication Devices in Vehicles

State Impact:
Enactment of this bill will require $20,000 per year from the General
Fund appropriated to the Courts beginning in FY 2010. The bill will also
generate $27,600 per year in new General Fund revenue beginning in FY
2010, for a net General Fund increase of $7,600 per year.

Funding Source

FY 2009
Approp.

FY 2010

$27,600

Total

$0

$20,000

$20,000

$0

$27,600

$27,600

Individual, Business and/or Local Impact:
Enactment of this bill likely will not result in direct, measurable costs and/or benefits for individuals or businesses. Local governments through Justice Courts adjudications will benefit.

For those of you who do not understand this means that it will cost the state only $20,000.00 to implement and the state will earn $7,600.00 per year. Please note it says "Local governments through Justice Courts adjudications will benefit." This is because the fine will be $1350.00. This also means that they are going to enforce it vigorously.

Hello All,

House Bill # 95 and House Bill #248 are be read in the House Rules

Committee. Here is a list of the email address for the members of the

2009 House Rules Committee. If you want to have your voice heard on

HB 95 and HB248 you need to send your comments to these people also.

These are the people who control if these proposals leave the

committee and go to the full house and on to the state senate. I have

sent my representative an email and followed up by sending a copy of

the email to her by US Mail. It is easy to ignore an email but it is

much harder to ignore a "real" letter.

I emailed my legislator and it is already being amended. It still need to be watched and the other bill ub245 or 248 that will probably be a substitute for it.

270. Employment open house for Engineers

Yahoo group: ut_races
Date: 2009-04-16 17:06:53 UTC
From: Keith, KB7M
Topic: 270 Message: 270

SPREAD THE WORD?OPEN HOUSE at AST today from 3pm ? 7pm.

Do you have friends or know of any engineers who might be interested in working at Applied Signal Technology? If you do?we need your help! Email?Facebook?MySpace?Phone Calls?bring them all or at least get them interested!

Today from 2pm-7pm we will be having an Open House for any interested engineers. Like any good AST event there will be plenty of finger food and beverages for all who attend. It will be a meet and great type of affair where candidates will learn more about AST, what we have to offer & what positions we are looking to fill. There will be no formal interviews being conducted but if a candidate should possess the skills we are seeking, they should be prepared for a short face-to-face meeting with one of our engineers (*phone screen*). We will bring in qualified candidates for a full interview ASAP.

We are located at:

1128 W 2400 S

Salt Lake City, UT 84119

(to get here please turn off of Redwood Road as a canal divides 2400 S)

Phone: (801) 908.7555

Please let me know if you have any questions or comments.

Thanks for all of your help!

Jessica Gerber

275. Repeaters in the Blanding Area

Yahoo group: ut_races
Date: 2009-06-16 14:57:20 UTC
From: Lester Memmott
Topic: 273 Message: 275

Matt,

I've not tried to personally use any repeaters in the Blanding area but a while back I put together a map of repeaters in Utah. It is kept current by using the live repeater database from the VHS Society. You can find the maps here:
http://www.lmemmott.info/UtahRepeaterMap.htm

The other thing that isn't obvious from the map is which, if any of these repeaters, hook into the net. Good luck. I hope it goes well.

Thanks,
Lester

284. BARC Swaptoberfest Oct. 10th

Yahoo group: ut_races
Date: 2009-10-04 21:48:12 UTC
From: Tyler Griffiths
Topic: 284 Message: 284

Just a reminder of the upcoming Bridgerland Amateur Radio Clubs 2nd
annual Swaptoberfest on October 10th
It will be held at the Cache County Fairgrounds, 450 South 500 West; Logan, Ut.
Setup at 7:00 AM – Deals start at 8:00 AM
Admission if free. Swap tables are $8.00 if purchased in advance or
$10 at the door.
Go to http://www.barconline.org/swaptoberfest to purchase your table
in advance or for more info.
There will be a raffle for two HT Radios. A Yaesu FT-60R and a Kenwood
TH-K2AT plus gift certificates and many other items
Raffle tickets are One for $4, 5 for $10, 15 for $20

Lunch, chips and drinks will be available to purchase also.

Flier:

286. Utah SET October 31, 2009 Exercise

Yahoo group: ut_races
Date: 2009-10-28 22:56:15 UTC
From: ThomasH
Topic: 286 Message: 286

Hi
Just getting the word out, I was asked to pass this along...

Welcome, all Utah EmComm groups. It has been about twenty years since the Utah Section of the American
Radio Relay League had a Simulated Emergency Test. I am hoping this years SET will stimulate interest in
continuing this as an annual event and at some point in the future, merging with the ARRL SET.
This year the Utah SET will be held on Saturday, October 31st. It will begin at 0900 hours or 9:00AM, local time.
There are two main objectives I desire to meet with the exercise.
1. Have as many EmComm groups as possible in the entire state get on the air at the same time on the
frequencies they have published in the group's communications plan (exercise their Communications Plan)
2. Encourage every EmComm group to write and publish a simple communications plan that defines their
communications when they are activated to support an emergency or disaster.
This is not a full scale exercise but, a specialized functional exercise that will include some deployment. Activation
protocols, including notifications and call-downs are not being exercised but, may need to be used as the exercise
starts to facilitate the goal to get everyone on the air at the same time. This year, the SET will have no exercise
scenario. Repeat, no exercise scenario. Not a severe weather event. Not an earthquake. Not a pandemic. Keep
this in mind as you work with your EmComm group.
Advertising this SET is a must. All resources (all Nets, Club meetings, Yahoo and Google groups, ARES
meetings, etc.) need to be used to get the word out so all will be prepared for the exercise.
As the SET Committee and I have met and developed the exercise parameters, several thoughts have come to
mind. The most important of these is the thought that all EmComm groups, wherever they are located in the state,
and whoever they serve as backup emergency communicators, all need a written communications plan.
The previous ARRL State Emergency Coordinator (SEC), Jerry Wellman, W7SAR, did a tremendous job getting a
State Comm Plan together. He and I have also requested copies of the County Comm Plans from the County
ECs. Some have been submitted, many have not. This is not a difficult task. As your current SEC, I have
reviewed the Comm Plans submitted and I have put together a one page Contact

list and Comm Plan that I feel
serves the need at the state level. There is a Davis County copy for use as a sample, in this packet. A second
generic version is also included and only needs to be filled out and a copy submitted to me prior to the exercise.
Please do this as soon as possible as your entire group will also need this on exercise day.
Another issue that will occur is the use of frequencies common to one or more groups as there are not sufficient
simplex frequencies available for everyone to have their own. Since there is no emergency scenario, there will be
no priority traffic. I suggest two methods to minimize frequency contention. 1) Use your best Net Control
Operators to run the nets for the exercise. They will exercise good judgment and will be courteous on the air. 2)
Where two or more EmComm groups find themselves on the same operating frequency, the priority use will be
alphabetical by EmComm group or jurisdiction name. Therefore if two jurisdictions such as Draper City and
Cottonwood Heights City find themselves using the same simplex frequency, Cottonwood Heights will use the
frequency first and then Draper next and so on. Since there is no emergency scenario, common courtesy needs
to prevail on the air.
Also, we have packed a lot to do in the time we, as a committee, have determined to be the exercise duration.
Time is of the essence. Get on the air, get your business done as quickly as possible and move on to the next
part of the exercise. Keep chit chat to a minimum and NCS watch for unnecessary, trivial radio traffic. In view of
the time set aside for the SET, minimal message traffic is desired. It is also desired to move some traffic on the
Beehive Utah Net at 12:30 PM. There is a short form with questions that will need to be answered to complete the
exercise. Please keep track of everything and answer the questions the best you can. The form will be the basis
for traffic moved to the next higher level.
May I thank you in advance for your participation and your continued support of Emergency Communications through your EmComm group.

1. At 0900 hours activate your EmComm groups Communications Plan.* Activate your nets and do a roll
call. In your planning for this exercise, make sure you will use all frequencies from your communications
plan appropriate to the area that your jurisdiction covers.
*If your EmComm group does not have a written communications plan, now is the time to get one written
and published to your group membership.
2. Many EmComm groups support only one served agency but, may deploy radio operators to many

locations (hospitals, shelters, churches, storehouses, Public Works locations, Points of Distribution, etc.).
Your EmComm groups leadership working through the Net Control Station needs to make every effort to
deploy as many radio operators to those secondary locations as the group can support. The deployed
radio operators need to take all the equipment they would normally take if activated for a disaster or
emergency. Each local EmComm group may use this exercise to interface with local served agency
points of contact for the purpose of demonstrating the EmComm capabilities as long as this interaction
does not detract from the overall exercise objectives. If served agency officials have been contacted prior
and have agreed to be contacted for the exercise, have the assigned communicators meet or contact
those individuals as they have prearranged. Net Control will log the time their participants deploy.
3. Each radio operator participating with their EmComm group will check into their net as soon as they are
set up and operational at their assigned location. If they have made contact with a served agency or
served organization leadership, that will be reported to Net Control. Net Control will log the information.
4. Net control will take another roll call at 0930 hours and assign each of their radio operators to monitor the
frequencies they have published in their communications plan to determine potential neighboring
EmComm group overlap. All radio operators participating in the exercise will keep a written record** of
their activities especially noting any adjacent EmComm groups that overlap frequency use.
5. At 0945 hours all radio operators in each EmComm group will return to their primary Net frequency. Net
Control will take another roll call to make sure each of their radio operators is back on Net. After this roll
call is complete or as it is being done, Net Control at their discretion may release each of their radio
operators to return to their beginning location where they will once again check into the net and request to
be excused. If the NCS feels it is appropriate and has no further need for the operator for the exercise,
they may be excused or if needed elsewhere, they may be reassigned.
**Make sure each participant has an 8 ½ X 11 lined notepad or paper and a pen or pencil with them for
this exercise.
6. NCS will compose a short summary report (report to be attached) to be sent to the next higher level of
operations.
7. At 1000 hours, all local EOCs (City or equivalent and where organized) will

check into their County EOC
(or equivalent) with their summary report.
8. At 1030 hours, all County EOCs will check into a State designated Net and pass their summary report.
9. The State net (endpoint for summary report traffic) will formulate a message to be passed on the Beehive
Utah Net to Jim Brown, NA7G, Utah Section NTS Net manager, during the BUN Net at 1230 hours.
10. The EmComm group leadership needs to make arrangements to collect all notes taken by all esercise
participants by Wednesday of the following week. The group leadership will compile all notes for their
group into one report to be brought to the RACES conference to be held on Saturday, November 7th or
emailed to Bob Craven before the day of the conference. It is extremely important that all notes from all
participants at all levels be turned in. There will be review of the exercise at the RACES conference.

287. Utah SET October 31, 2009 Exercise

Yahoo group: ut_races
Date: 2009-10-28 22:57:32 UTC

298. Summary on Earthquake in Haiti

Yahoo group: ut_races
Date: 2010-01-13 22:41:42 UTC
From: BobC
Topic: 298 Message: 298

Hello, Section Emergency Coordinators.

The following is a brief summary of information that we have gathered at ARRL HQ on of the situation surrounding the earthquake in Haiti .

I'm forwarding this to the ARRL Section Manager Reflector as well.

==========

On Tuesday (January 12) there was a 7.0 magnitude earthquake in Haiti , which has since been followed by serious aftershocks. Communications in and out of Haiti have been disrupted. No word has been received as of yet from any of the national HH Amateur Radio operators. The DailyDX notes that HH2/HB9AMO, Pierre , is OK and was located about 140 km north of Port-au-Prince in Cap Haitien at the time.

The IARU Region II Area C Emergency Coordinator, Arnie Coro, CO2KK, is coordinating the multi-national response by hams. There are organized nets on 7045 and 3720 kHz and amateurs are asked to monitor but also keep the frequencies clear of non-essential traffic. Amateur Radio operators should also be aware that emergency traffic pertaining to the Haitian earthquake is expected on the SATERN frequencies of 14265, 7265 and 3977 according to SATERN's leader, Major Pat McPherson. The Salvation Army has a website up for H&W traffic and other news at www.satern.org.

Amateur Radio operators are circled around Haiti in Cuba , Florida , the Dominican Republic , Puerto Rico , Venezuela and other locations listening for any calls, but so far no HH stations had checked in.

Please keep clear of frequencies :

14265

7045

7265

3977

3720

The situation is still chaotic and more information will be posted as soon as possible. Information is being validated and shared between many amateur groups and news sources as it unfolds.

==========

Thank you.

73,

Steve Ewald, WV1X

Supervisor, Field Organization Team

From: Tyler Griffiths
Topic: 312 Message: 312

Bob WB4APR (the Father of APRS) is again at the Small Satellite Conference at USU. He has offered to give a talk to us. He has both of the new Yaesu VX-8G and Kenwood TH-D72 both HT's with built in GPS. Bob is always a very exciting speaker ans full of innovating ideas. So please come join us. Because of his busy schedule we can't do this any earlier so it will be a little late.
We just found out about this so we don't have a location locked down yet but will send out information as soon as we know.

315. NWS Repeater

Yahoo group: ut_races
Date: 2010-08-09 20:46:20 UTC
From: k2nws
Topic: 315 Message: 315

I recently sent my ACS repeater in for a FFC spec and to install the WX-250 <http://www.catauto.com/wx250.html> into the repeater. This means the KF6RAL repeater (located at Bachus, Salt Lake Valley) will alert on NWS warning, Civil Emergency Messages, and Amber Alerts along with reminding on 15 minute intervals. Once this is programmed I will provide the alerts. The KF6RAL repeater should be back online this Wednesday alerting. frequency is 447.525 - pl 107.2

Ona side note, Any club owing a repeater that hears a NWR (NOAA Weather Radio) transmitter that wants to install a WX-250 let me know. I have 5 of them. I would need them installed this year.

Thanks for the support.

Joe

320. KF6RAL NWS repeater operational with alerting

Yahoo group: ut_races
Date: 2010-08-22 23:15:51 UTC
From: k2nws
Topic: 320 Message: 320

Good Evening everyone,

I installed theKf6RAL <http://utahvhfs.org/cgi-bin/rptdtl.cgi?Nr=214>
(447.525- 107.2)n repeater and WX-250 weather alert this past Monday.
I have it alerting on all event codes for Salt Lake and Davis Counties.
It also has an internet feed on radio reference
<http://www.radioreference.com/apps/audio/?feedId=5788> . I just heard
2 thunderstorm warnings come over it so it is working. I have 4
wx-250's left. Feel free to use the repeater we have it installed on
Bacchus with a generator back-up and UPS.

thanks for the support

Joe

321. Utah State Simulated Emergency Test November 6th, 2010

Yahoo group: ut_races
Date: 2010-09-10 15:28:43 UTC
From: roger.kehr
Topic: 309 Message: 321

Each year the American Radio Relay league conducts a Simulated Emergency Test in every State in the Country. Utah is having theirs on November 6th. With a severe winter storm, 3 earthquakes, and a flood this year will prove to be a handful for agencies and our amateur radio operators. Emergency agencies and communications groups must register now to take part. Please read the attached for more information.

Press Release
Wednesday, September 8th, 2010

What: The American Radio Relay League State of Utah Simulated Emergency Test (SET)
Where: This test covers every county of Utah
When: November 6th, 2010 from 08:30 to November 7th, 2010 07:30
Who: All Amateur radio operators involved with Emergency Operations Centers, Emergency Communications groups, served agencies, serving agencies, and cities wishing to participate.
Why: The American Radio Relay League (ARRL) encourages all States to conduct one SET per year to prepare their communications systems for disasters

The Mission of the SET is:
To conduct a series of exercises designed to test
and improve emergency communications on all levels under adverse
conditions.

The Scenario:
Beginning at 01:00 on Saturday night, November 6th, 2010 a large winter storm engulfs the entire state. By 08:29 there are 2 feet of snow in most areas with higher elevations receiving over 5 feet. At 08:30 a 7.4 magnitude earthquake, centered in North Salt Lake City occurs, quickly followed by two additional quakes of 6.5 magnitude. One is centered in Central Utah near Green River and the other near St. George.
As a result of the initial quake the Great Salt Lake bed heaves and rises 6 feet. The Salt lake valley floor fills with an average of 2 feet of water. The Jordan River bottom and low points of the valley are flooded to water levels exceeding 6 feet.
Initial deaths are 4500 confirmed with estimated injuries exceeding 31,000. Three thousand people are stranded at the Salt Lake Airport and 300 at bus stations. An aircraft has crashed at the Salt Lake International Airport with most passengers requiring immediate medical care. Reports of widespread building destruction are being received.
Overpasses on I-15 and I-80 have failed and fallen. Traffic is minimal but escalating as first responders attempt to report to their agencies.
The power system is down, natural gas lines are ruptured, fuel trucks are unable to resupply generators. Phone lines are down and cellular service has reached its saturation point. Mountain top installations are intact as are the NOAA and NWS radio stations.
Sewer systems are in failure. Potable water is compromised requiring boiling and treatment.
The National Weather Service has issued an emergency alert and warns of more significant snowfall to arrive in the early evening.

The Utah SET 2010 committee requests all emergency communications groups with amateur radio operators to register at www.utahset2010.org and participate in this test. All instructions are on the site.
For more information contact: Roger Kehr, N3AOQ, Utah SET Chairman, at cottonwoodheightsradio@... or call 801-450-0454.

327. Utah SET 2010 County/Ecomm groups communications plans

Yahoo group: ut_races
Date: 2010-10-23 23:46:34 UTC
From: Tyler Griffiths
Topic: 327 Message: 327

With the upcoming Utah SET I see need to look at the communications plans for other Counties/groups.I can only find a couple.
Looking at area club's websites, ARES groups websites, etc. I can not find them.
Maybe there needs to be a central repository to keep these at for reference when ever needed?

Just thinking...

This is most likely a case of an email address being hacked or spoofed. If you look at the bottom of the message it says "[Non-text portions of this message have been removed]" which indicates that the original message may have contained a virus or other malware.

So no, it doesn't appear to be on the level.

It's a spam. My wife's email got hacked a while back and they send the same message word for word to everyone in her contact list. they also changed her password so she couldn't send out a ignore that message.

My wife had used a basic password. I hope we will all reevaluate our passwords on all our accounts to make sure they are secure. I use CAPITAL letters, lower case letters, numbers, and $peci@! case charectors on mine. Just some advice from an old computer professional.

Good afternoon,

As the RACES coordinator for Utah, I was also concerned about the plea for help. It was suspect in my mind when I first read it at home last night. When I got to work this morning I cehcked the RACES database and sure enough we have a Lauren Clark as a registered member of Utah RACES.

I made a phone call to the listed number and the real Lauren Clark answered. We chatted and he told me that his Yahoo email had been hacked and the message was sent to the entire address book. It is a SCAM, as we all have supected.

I know he will have other consequences to that event beyond what we all got. Be especially careful when seeing anything from that email address. I am planning to delete the original message and block Lauren's old email address so no further messages of this sort can pass through to our RACES group.

73,
Bob Craven, N7GTE
Utah Div. of Emergency Management
RACES Coordinator

The emails are all scams. Do not open the emails or your mailbox will be compromised. My aunt's email box got broken into and the email I received from her was exactly the same. So whoever it shows sending these emails, your mailbox has been hacked. You probably have some virus or keylogger installed on your PC.

When I was at the Regional Emergency Communications Coordinators Working Group meeting in South Dakota I met Dean Galloway and had a look at Squad 16. I coordinated with Dean to stop by Salt Lake on his road tour. Dean is bringing Squad 16 to the State Office Building and will be showing it off this afternoon to all interested. This is a unique resource and I recommend you take the time to see it and have Dean explain its capabilities.

Here is a link with more about the vehicle and a great Photo Gallery:
http://www.usadrc-squad16.us

Squad 16 will be here today, June 1, and tomorrow, June 2nd. If you have any questions, give me a call, 801-209-7373.

366. Utah RACES/ARES Conference 2011

Yahoo group: ut_races
Date: 2011-10-27 22:33:54 UTC
From: BobC
Topic: 366 Message: 366

RACES/ARES member,

I want to remind you to attend the annual ARES/RACES Conference on Saturday, November 5th at the Davis Conference Center, located at 1651 North 700 West in Layton, Utah.

A continental breakfast will be served from 8:00 a.m. to 9:00 a.m., with the Conference commencing promptly at 9:00 a.m. Lunch and an afternoon break will also be provided. If you are not registered, you need to register by the close of business on Monday, October 31st. Attending without registering will result in you not getting the provided continental breakfast, lunch and break snack. The final count of attendees will be submitted to the Davis Conference Center on Tuesday, November 1st. As in past years, registration is through UTRAIN.

Also, PLEASE be sure to bring your hand-held radios, with the batteries fully charged and the instruction manual for it.

We will be doing an exercise in the afternoon that you will not want to miss out on, in preparation for the 2012 SHAKEOUT. Please plan on staying for the entire Conference.

I hope to see you there.

From: zoccadoum
Topic: 371 Message: 373

Utah County ARES has adopted the configuration now accepted by ARRL as shown in the link you submitted. I believe it is the same for most other counties, however I always keep a reverse adapter in my jumpkit just in case.

I know Standard Supply carried them a year ago since I purchased some there.

Ra-elco, Ballard, or Kimball Electronics in Salt Lake City may also carry them (I believe all of them have websites so you can lookup there contact information and call them). I know the Davis County ARC carries them and I would bet some of the other ARC's may also carry them in their bookstores at their monthly meetings.

Good Luck!

376. Announcement

Yahoo group: ut_races
Date: 2011-11-25 13:08:54 UTC
From: patmalan
Topic: 376 Message: 376

Hello Everyone,
This is to announce the KO7SLC D-STAR Repeater that is installed at the IHC hospital in Murray.

The assigned Frequencies are:

C Module 145.150-
B Module 447.950-
High Speed Data 1298.750 RPS

We need to tune the duplexers and the obvious task of software installation and gateway configuration, etc. We will let everyone know when it is online. In addition to our web page www.slcoares.net, we will soon have www.ko7slc.org.

73's

378. RACES Membership Number

Yahoo group: ut_races
Date: 2012-03-09 14:41:13 UTC
From: Terrence Mischler
Topic: 378 Message: 378

Good Morning

I made an application to join RACES at the VHF Swap Meet.

Is is possible to send the membership number and any other information to me?

many thanks

Terry Mischler, KF7SRU

387. RACES Number? Follow directions to Check!

Yahoo group: ut_races
Date: 2012-04-21 21:55:15 UTC
From: unclegoodguy
Topic: 387 Message: 387

If you want to see your new RACES Number, click on FILES on the left of the screen, and then scroll down to RACES Roster PDF file. The Roster will come up if you click on it.
AND Then--
Do a CNTL+f, and then type in your call sign and press enter. Voila!!! There you are, looking at your call sign and your new RACES Number!!!
Thank the Lord and Bob Craven for helping you get your number. Please keep your comments to yourself and don't say "It's about time" cuz you now have your number. Be Grateful, not sarcastic.

Richard Shaw KC7GMN

390. Facilities in Washington County Update

Yahoo group: ut_races
Date: 2012-04-17 00:56:22 UTC
From: vosperr
Topic: 390 Message: 390

Last week we installed new amateur radio equipment and antennas on the Dixie Regional Medical Center on South River Road in St George. IC 7000 and IC 706. We have a Signalink on the IC 7000. We have a Windom HF antenna installed at the two upper roof areas. (five story up) Diamond dual band antenna for our 2meter & 70CM. The Washington County EOC on 197 Tabernacle in St George has an Alinco dual band and IC 7000 with Signalink attached. We still need to replace the HF antenna and have the replacement on site ready to install which will be installed soon.

403. New EmComm CERT module

Yahoo group: ut_races
Date: 2012-09-19 16:46:10 UTC
From: Mike, KD7MG
Topic: 403 Message: 403

FYI,

There's a new module that's been added to the CERT training package and
that's "Emergency Communications".

In this 4-hour module, CERT members will learn.
1) The role of CERT in communications during an activation.
2) How to use a communications plan.
3) The use of different communication modes and strategies.
4) How to use communication devices.

More info and training materials can be found here:
https://www.fema.gov/library/viewRecord.do?id=6223

We as communication specialists might be asked to help teach this segment,
so it wouldn't hurt to familiarize ourselves with it.

Cheers,
Mike Groves
KD7MG

405. RACES Conference 2012

Yahoo group: ut_races
Date: 2012-10-10 19:45:58 UTC
From: BobC
Topic: 405 Message: 405

Good day,

The 2012 RACES/ARES Conference is less than a month away, Saturday, November 3rd. It will be held again this year at the Davis Conference Center in Layton, Utah. This conference has always been a great time to receive instruction and network with your peers from around the state. There is not a charge to attend.

If you have not already signed up to attend, please do it now. As in previous years, registration is through UTRAIN, (www.utah.train.org). The Course ID is 1011069. The Utah Division of Emergency Management, sponsor of the conference, would like a final count of attendees by October 29th so that we can have conference materials and name badges ready and a meal count for the food service at the Conference Center.

Thank you.

407. AUXCOMM Course - Utah County

Yahoo group: ut_races
Date: 2012-10-11 17:14:37 UTC
From: BobC
Topic: 407 Message: 407

Date and Time: Friday and Saturday, October 26th and 27th, 2012, 8:00 AM to 5:00 PM each day.

Location: Utah Valley Convention Center, 220 W Center St, Provo, Utah, Soldier Creek Room, which is on the 3rd floor.

Registration: VIA UTRAIN, Course number 1031331. There is no cost to take this course.

Description: This workshop is designed for the amateur radio/auxiliary communicator or group who provides emergency communications backup support for planned or unplanned events at a State/Territory, Tribal, regional, or local level. This offering is designed for amateur radio operators/organizations who work with public safety and cross-disciplinary emergency response professionals and coordination/support personnel with an amateur radio background.

The course focuses on educating attendees about auxiliary communications interoperability, emergency operation center etiquette, on-the-air etiquette, FCC rules and regulations, auxiliary communications training and planning, certification and accreditation and emergency communications deployment. It is intended to supplement and standardize an operator's basic knowledge of emergency amateur radio communications in a public safety context.

Prerequisites: General Class or higher amateur radio license. Also, IS-100, IS-200, IS-700, and IS-800. The IS courses can be completed online at: http://training.fema.gov the FEMA Independent Study Website.

408. Utah D-Star Net

Topic: 408 Message: 408

Just a reminder of the D-Star Net every Sunday Night at 8:00pm.
Several of the Utah Repeater already are connected to Reflector 29 C If not connect them and check in. Or connect a Hotspot or DVAP or DV-Dongle to Reflector 29 C.
This is a quick Net We call Roll then go back and see what people have been doing over the past week.
So hope to here you.

Thanks Ted.

I am not a D-Star person yet and I am just starting to learn about it.
None of my equipment is D-Star, most of it is older.

I will be checking into the UCARES net of the 147.34 Repeater in Utah
County on the 17th during the shakeout for the Eagle Mountain Emergency
Communications Team. We have a Station set up at Eagle Mountain Fire
Station #2 which is UFA Station 252. We have been in operation now for
about 1 1/2 years.

Thank You

Allen,

We should be monitoring the Promontory Repeater 147.26 Pl 103.5 you might be able to hit it from Utah County.

Is there a Conference scheduled for 2013? If so, where will it be and is it too late to register?

Jack Christensen KD7NX

--- In ut_races@yahoogroups.com, <ut_races@yahoogroups.com> wrote:

RACES/ARES member,

I want to remind you to attend the annual ARES/RACES Conference on Saturday, November 5th at the Davis Conference Center, located at 1651 North 700 West in Layton, Utah.

A continental breakfast will be served from 8:00 a.m. to 9:00 a.m., with the Conference commencing promptly at 9:00 a.m. Lunch and an afternoon break will also be provided. If you are not registered, you need to register by the close of business on Monday, October 31st. Attending without registering will result in you not getting the provided continental breakfast, lunch and break snack. The final count of attendees will be submitted to the Davis Conference Center on Tuesday, November 1st. As in past years, registration is through UTRAIN.

Also, PLEASE be sure to bring your hand-held radios, with the batteries fully charged and the instruction manual for it.

We will be doing an exercise in the afternoon that you will not want to miss out on, in preparation for the 2012 SHAKEOUT. Please plan on staying for the entire Conference.

I hope to see you there.

Bob Craven, N7GTE

Utah Division of Emergency Services

427. Invitation to the Annual ARES/RACES Conference

Yahoo group: ut_races
Date: 2013-10-28 21:45:14 UTC
From: <n7gte@...>
Topic: 427 Message: 427

The annual Utah ARES/RACES Conference will be held on Saturday, November 9th, 2013, 8:00 am to 4:00 pm at the Davis Conference Center http://maps.google.com/maps?f=q&q=1651+North+700+West+%2c+Layton%2c+Utah+84041%2c+United+States&z=131651 North 700 West http://maps.google.com/maps?f=q&q=1651+North+700+West+%2c+Layton%2c+Utah+84041%2c+United+States&z=13Layton http://maps.google.com/maps?f=q&q=1651+North+700+West+%2c+Layton%2c+Utah+84041%2c+United+States&z=13. This is the same location as last year. We invite your attendance and participation.

You need to pre-register for the conference. If you have already registered through U-TRAIN for the ARES/RACES Conference in the past, signing up for the conference is easy. Login to U-TRAIN then enter the conference course ID, 1011069, in the search box and click the search icon. On the Course Details page, select the Registration tab and proceed to register.

If you are new to the ARES/RACES Conference and have never used U-TRAIN, you will need to set up a U-TRAIN account. U-TRAIN will provide you with transcripts of all courses you have completed and you will be able to print your certificates upon course completion.

To create your account:

Go to https://www.utah.train.org https://www.utah.train.org/DesktopShell.aspx?tabId=62&goto=browse&browse=keyword&keyword=1011069&keyoption=Both&clinical=Both&local=All&ByCost=0

Select Create Account

Enter your account information. Please select a login name and password that you will easily remember.

State or local agency employees select your agency and division (if listed).

Make sure the “I would like to receive emails from TRAIN” is checked and you respond to the e-mail TRAIN sends to you to activate.

On the next screen click on the Select Groups button of the State Portal, click on the “Select Agency” dropdown and choose “Agencies” and click on the next “Select Agency” dropdown and if nothing in the list is applicable to you select “Other” then click on the “Select General Employment Category” dropdown and choose “Statewide Groups” click on “Select Statewide Group” then select at least one of the following: Emergency Managers (HLS), First Responder EMS – Fire – Hazmat or Law Enforcement, even if you are not one of them, so you will be able to view our course listings on your “Home” page. Click “Submit” and choose “Next” (you do not need to do anything with the MRC or the CDC portals.)

Continue on through the following:
a. Professional Roles (up to 3)
b. Work Settings
c. Demographic Information

Go to the “Home” page, sign in, and signup for the class you are interested in taking. For the RACES Conference, in the search box (it has the words Keyword or Course ID in it), key in the course number, 1011069, and click the search icon (it looks like a magnifying glass). On the Course Details page, select the Registration tab and proceed to register. The system will indicate that your request has been submitted and has to be approved. U-Train notifies the State Training Staff. ?? acknowledge by email that you are registered.

Driving Directions:
From I-15 take Exit 331 UT 232/Hill Field Road. On Hill Field Road, continue past Layton Hills Mall then turn left on Heritage Park Blvd. At the intersection of Heritage Park Blvd and Layton Hills Parkway, turn right. Continue on Layton Hills Parkway to the entrance to the Davis Conference Center parking on the left. You can also find a map on www.davisconferencecenter.com http://www.davisconferencecenter.com/.

428. Stolen radios, SLC area

Yahoo group: ut_races
Date: 2013-11-10 18:40:49 UTC
From: <jw@...>
Topic: 428 Message: 428

All,
Vehicle burglary alert!
This morning between 0905 and 0955 my vehicle was broken into behind an LDS church. Suspect vehicle is a WHITE pickup truck with no plates (possibly temp tag). No descrption on individuals.

STOLEN:
Kenwood TS-50S mobile in a Tac-Comm carrier
Midland CB (removable front panel) SSB/AM model 79-290
EF Johnson VHF-FM Mobile in a Tac-comm carrier
EF Johnson 900 MHz Ascend portable with a high-gain antenna (does not have full keypad)
Epson digital projector, white, in a black case

Several other items were also taken (solar cell phone charger and a Canon small digital camera, unknown model in a small belt carry blue cordura case)

All items were marked and I'm looking through records for serial numbers. The EFJ 5300 was programmed for CAP and ham frequencies. The 900 MHz portable was programmed for the SLC and Logan 900 MHz ham repeaters.

Please spread the word. If you see it listed on KSL.com, Craigslist, eBay or in a pawn shop, I would welcome information. Theft has been reported to Unified Police Department.

THANKS (and please spread the word)

Jerry Wellman, W7SAR, jw@desnews.com

443. New Utah Ham Email Group for announcements, reminders and special events

Yahoo group: ut_races
Date: 2015-01-24 18:49:52 UTC
From: Tyler Griffiths
Topic: 443 Message: 443

With the apparent death of the old "utahham@yahoogroups.com" I have created
a new Utah Ham email group so we can share Utah ham radio news and
announcements, periodic reminders about special Events and Meetings.
utah-ham@yahoogroups.com

Uses would be for Hamfest announcements, Club meeting announcements,
Special event announcements and anything ham radio news oriented.
This group will be open but require approval to join and messages will not
be moderated unless there becomes a problem.
Please feel free to pass this along to any ham, ham club or club newsletter
so we can get it decimated through out the state of Utah.

To join:
you can search Yahoo Groups for: utah-ham
send an email to: utah-ham-subscribe@yahoogroups.com
or click this link: https://groups.yahoo.com/neo/groups/utah-ham/info

If you have questions please feel free to ask!

Tyler Griffiths

448. Silent Key - N7OVT - Eugene McWherter

Yahoo group: ut_races
Date: 2015-04-28 14:21:19 UTC
From: Mel Parkes
Topic: 448 Message: 448

This morning I was notified that a very good friend, Eugene McWherter, N7OVT, passed away last night! I was very sadden to here about this, Eugene certainly left a mark on Amateur Radio in Utah that will never be forgotten, he influenced the lives of 100's if not 1000's of hams teaching, mentoring and administering tests to many groups and clubs. I know our thoughts and condolences reach out to his wife Carol, KC7LLW,who has always been at his side in all activities they were involved in. The family have not yet released any funeral plans but please pass this info on to your friends and acquaintances that knew Eugene.

Eugene will be missed!

Mel Parkes, NM7P

456. 2015 RACES/ARES Conference

Yahoo group: ut_races
Date: 2015-10-30 01:43:22 UTC
From: Mike, KD7MG
Topic: 456 Message: 456

Greetings,

If you can't attend the RACES/ARES conference in person this Saturday at the Davis Conference center in Layton, you may still get a second chance, if the YouTube Live streaming event goes as planned. You'll need the following URL.

https://www.youtube.com/watch?v=YoNxJUUYMuM (You can also find the event by searching YouTube for "2015 RACES/ARES Conference".)

Please forward this URL to others in your group, especially for those groups out of the area.

It will [hopefully] go live at 8:30 am Saturday and can be viewed on any device that can normally see a YouTube video, including PC, Mac, Linux, iOS, Android, Smart TV, etc. The upload stream will be 720p, but YouTube will automatically scale the video rate down, if needed, to match your device's or ISP's needs. The stream will also have a built-in DVR, so if you sleep in, you can still start the conference from the beginning and fast-forward through the breaks. Shortly after the conference concludes, the above link can be used to access the archived video.

During the live event, you can use YouTube's chat feature to post questions you may have for the presenter, or comments regarding the video stream in general. You can also text your questions/comments to my cell at 801-510-5080. Please include your name, callsign, and location with any correspondence. Depending on time constraints, we may not get to all of your questions, but we'll do our best.

73,

Mike Groves, KD7MG
Assistant Emergency Coordinator
Davis County, Layton City
Amateur Radio Emergency Service
